Noise absorber, soundproof

Listen, it couldn't be better!

Today, the greatest luxury at home and at work is the acoustic comfort and quality of our surroundings. After several years of intense research, CLIPSO® has developed CLIPSO ACOUSTIQUE®. The 250 000 micro-perforations per m² in the CLIPSO ACOUSTIQUE® covering plus a specifically adapted sound absorber (glass wool, rock wool, etc.) ensure that up to 90% of the surrounding noise is eliminated (conversation, music, etc.).

The perfect combination of comfort and aesthetics!
